

Global Suppliers KPIs

2021

Suppliers Parts Rejected (PPM)

Aim

This KPI is needed to get a clear picture about the quality performance of purchased parts. (Suppliers)

Formula

$$\frac{\text{N}^\circ \text{ of parts rejected}}{\text{N}^\circ \text{ of parts received}} * 1.000.000$$

Description

Ratio between amount of rejected parts due to non conformity detected: a) during incoming inspection, b) during production and total amount of received parts.

Note

- Received parts: by including commercial and raw material
- Rejected parts: NOT batch rejected but only defective parts
