

MIDI / SUPRA V2

UPGRADE YOUR WITTUR DOORS WITH THE NEW VERSION OF
OUR CONTROLLER MIDI/SUPRA V2

MIDI / SUPRA V2

BENEFITS:

- **AUTOMATIC FORCE ADJUSTMENT**
- **ENERGY EFFICIENT**
- **SOFTWARE UPDATE**
- **BACKWARDS COMPATIBLE WITH MIDI/SUPRA V1**
- **READY FOR**  **ELEVATORSENSE®**

IMPROVEMENTS:

Easy Learning Mode:

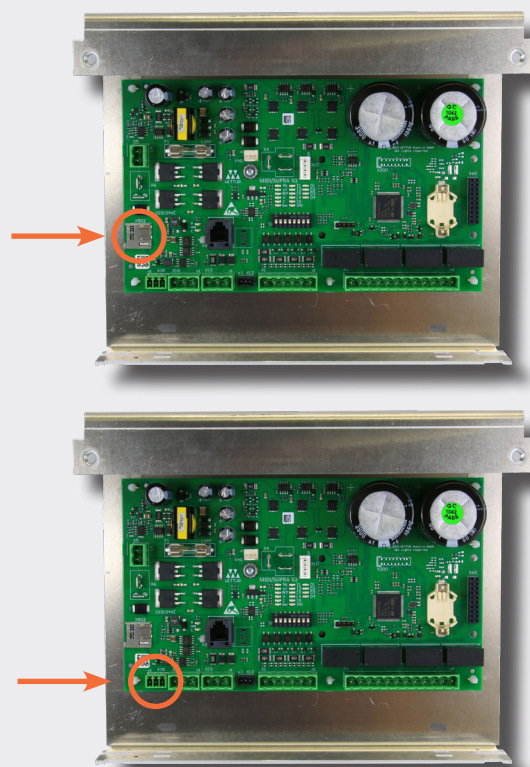

- Automatic learning procedure with acoustic feedback fast by service drive buttons
- Optimized speed profile
- Save time on site during maintenance activities

SD Card:

- Slot on board
- Easy to access
- Door controller always up to date with the latest features
- Door parameters transfer

CAN Interface:

- CAN-Open interface as standard on board
- Different customer protocols (different firmware)
- Easy connections and communication with the main lift controller
- Less parts on the field

The newly designed MIDI / SUPRA V2 continuously monitors the most important technical parameters of the door and consumes less power especially, but not only, for operating states where the door is kept opened or closed.

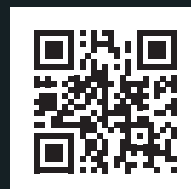

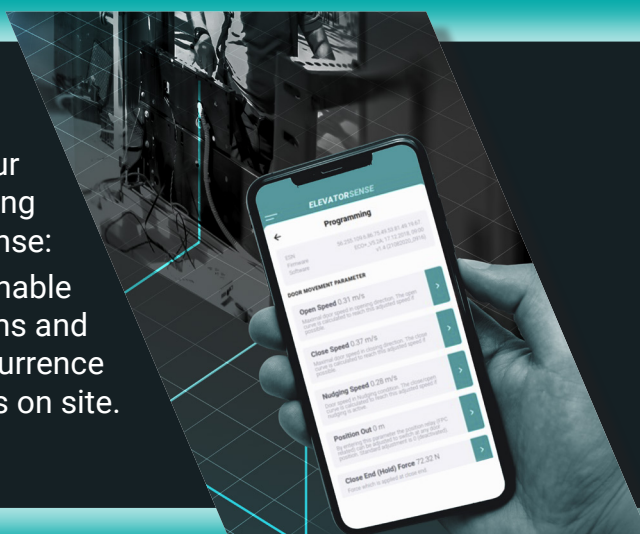

During the movement of the door, the data sets of the system are optimized for smoother operations and an improved long-lasting reliability.

By doing so, the MIDI / SUPRA V2 provides more efficient motor management without any loss in performance of the elevator.

MAKE YOUR ELEVATOR SMARTER

WITH MIDI / SUPRA V2 & **ELEVATORSENSE®**

Get the best out of your Wittur door by combining MIDI / SUPRA V2 with ElevatorSense: thanks to its features, ElevatorSense enable early detection of problems and can reduce the occurrence of unplanned troubleshooting visits on site.
