

## RECOMMENDED INTERVALS FOR PART REPLACEMENT CHECK

This recommendation is for the only purpose of providing additional non-binding guidance for the frequency of checks of specific product parts during preventive maintenance operations.

Maintenance of WITTUR products is to be provided only by qualified personnel and remains under the sole responsibility of the company providing it. This recommendation is in addition to guidance for regular maintenance of WITTUR products as laid out in the relevant maintenance manuals. This recommendation does not affect the warranty or any other terms and conditions under which WITTUR products have been sold.

Component name	Part number	Car door	Landing door	4 Years or 400'000 opening cycles*	8 Years or 800'000 opening cycles*	10 Years or 1'000'000 opening cycles*
